

# Advanced Smartphone Supervision and Monitoring

## FEATURES

**VCheck24** is a feature rich virtual supervision technology built specifically for the criminal justice market. Featuring CLIENT VIDEO CHECK-INS, continuous GPS tracking, customizable check-in schedules, geo-zone creation, in-app agent/client messaging, as well as auto daily and/or weekly activity and alarm reporting for agents with high-volume caseloads. Re-entry programs use **VCheck24** to monitor high volumes of low-risk individuals for program compliance.

Check out some of the VCheck24 features below...

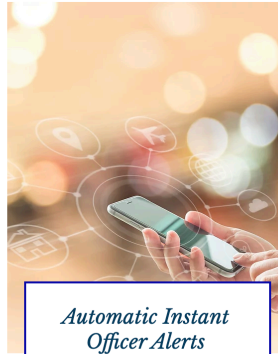

### *Customizable Video Check-ins*

Create customized video check-in schedules and unique zone triggered check-in zones. Each VCheck takes a 13 second video.

### *Continuous GPS Tracking*

Smartphone tracking displays selected clients' stop locations for easy viewing of GPS history and locations visited by client(s).

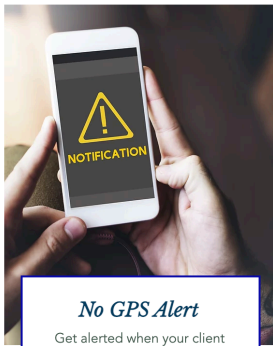

### *Automatic Instant Officer Alerts*

Get alerts via e-mail and/or text and customize which alerts you want to receive. One or multiple officers may be assigned to any case.

### *Presence Monitoring (Jail)*

Use AGENCY ZONES - Get alerted if a client remains at any jail for an extended period of time.

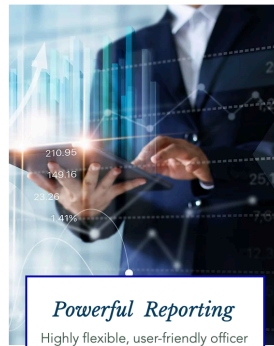

### *No GPS Alert*

Get alerted when your client deletes the app, deactivates location, turns off their phone. The no GPS alert is customizable by timeframe of no GPS signal.

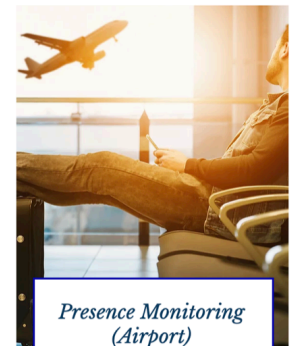

### *Powerful Mapping Interface*

VCheck24's powerful Web monitoring interface allows for real-time client tracking as well as detailed historical tracking displayed on the map.

### *Powerful Reporting*

Highly flexible, user-friendly officer Web monitoring interface provides multiple client and case-load reporting options along with GPS traces on a map for PDF Reports.

### *Presence Monitoring (Airport)*

Use AGENCY ZONES - Get alerted if a client remains at any airport for an extended period.
